

ADVANCED INGREDIENT DOSING TECHNOLOGY **FOR BAKERIES**

Powder Technic Ltd. is a high-tech company specializing in automated ingredient handling. With over 30 years of experience and the expertise gained from hundreds of highly demanding powder and fluid process automation projects, we design and deliver the industry's most advanced materials handling equipment and system technology for industrial and artisan bakeries.

PROCESS INDUSTRY QUALITY LEVEL AT AFFORDABLE PRICE

Thanks to our equipment's module structure, use of standardized machine components and our company's lean organisation, we can offer high-quality process industry level equipment at remarkably lower price than our competitors.

CUSTOMIZED INGREDIENT DOSING SOLUTION FOR YOUR BAKERY

One major factor to our success is the use of bakery's existing equipment as a part of the new dosing system. We can easily take your existing silos into the new automation system's control and include them to the recipe controlled dosing system. Because of the clever module structure of our dosing system, you can start with a small initial investment and increase the automation level later.

DOUGH PRODUCTION REVOLUTION BY POWDER TECHNIC

We have revolutionized dough production in the Finnish bakery industry by replacing equipment previously used by our customers (e.g. 2E, HB-Technik, Reimelt) with our Powdermatic™ small ingredient dosing unit, Watermatic™ water dosers, fully automatic sourdough system and recipe dosing automation, whose reliability and user-friendliness have made them the industry standard in Finland. Our Finnish market share in industrial bakeries is approximately 90%. Due to the small size of our domestic market area, we have expanded our operation into Scandinavia, the Baltic countries and Russia. The share of exports is about 25 % of our turnover.

We are family-owned company founded in 1989 in Kotka, Finland. We design and supply automated Dosing equipment and Dosing systems. We have over 30 years+over 700 projects of experience of automate powder handling processes. Our customers are industrial bakeries, artisan bakeries. Our equipment comply with the EC1935/2004 of food contact materials - We are the marker leader in Finland with nearly 90 % market share in industrial bakeries. Our turnover is approx 2,5 Me – 3,0 Me. We are financially solid. We have had AAA-credit rating since 1996. We are ISO9001:2008 certified company.
